# Design SERIES™

---

*The timeless beauty of frameless glass. The freedom to design the shower environment of your dreams. Enjoy limitless possibilities with the Design Series from Cardinal.*

With sleek, clean lines that conform to the most stylish contemporary trends, the Design Series™ from Cardinal delivers the ultimate in style and design versatility. Whether you are creating an open walk-in shower, a steam shower with built-in steam vents and transoms, or an all-glass enclosure with double glass doors, the Design Series from Cardinal makes your vision a reality, with a wide range of finishes, glass, and hardware options.

## CARDINAL™

Shower Enclosures • Commercial Glazing Systems • Artisan Glass

## Unlimited glass possibilities.

### Artisan Glass

Inspiring Artisan Glass options like cast glass, patterned glass, sandblasted glass, and chipped edge glass are available in classic or custom patterns and colors to complement your décor.

### Satori® Digital In-Glass Printing™

Our advanced Satori® digital in-glass printing gives you the freedom to create colorful, high-resolution custom glass panels with vivid graphics. With Satori®, you can print virtually any image into glass. The Satori ink, comprised of ceramic frit, bonds and fuses to the glass in the tempering process, creating printed glass that is ultra-smooth, scratch resistant, fade resistant and antimicrobial. The possibilities are infinite.

### Priva-Tech™ Printed Privacy Glass Panels

Function meets color in the modern shower. Priva-Tech™ is the new way to create a custom “privacy shield” using Satori digital in-glass printing. You can specify crisp edges or transitioned fades, colors, opacity levels and sight lines, to create a custom look.

### Cardinal 10™ Glass Surface Protection

Choose Cardinal 10™ Surface Protection to upgrade any glass. Cardinal 10 provides built-in protection to create an easy-clean, non-stick surface that repels soap scum, grime and mineral buildup, and is safe for use with standard glass-cleaning products.
